

DEMS Personnel and Agency Database

A Manager's Guide to Big Picture

NORTH DAKOTA
DEPARTMENT *of* HEALTH

What is Big Picture?

- Big Picture is the database DEMS uses for all EMS personnel, ambulance services, quick response units as well as trauma and stroke centers.

What can an EMS provider do in Big Picture?

- Verify and change contact information
- Print duplicate copies of your license
- Upload a picture for your license

As a manager, you can do all of those things for personnel on your roster as well as update the information for your service. Roster management is another process that can be done in Big Picture.

How to get there?

Go To: ndhealth.gov/ems/

You will be at DEMS's homepage.

Click on Joe Trauma.

FEEDBACK

Please give us feedback about your experience with the North Dakota Department of Health

Division of Emergency Medical Systems

The Division of Emergency Medical Systems (DEMS) is North Dakota's lead emergency medical services (EMS) agency.

DEMS is responsible for:

- Licensing ambulance services and quick response units.
- Training, testing, certification and licensure of EMS personnel.
- Coordinating the State Trauma System.
- Administering the EMS for Children Program.
- Coordinating the State CISM Team.
- Coordinating the State Stroke System of Care.
- Coordinating the State Cardiac System of Care.
